Calibre Craftsman

The precision engineered timber door - a true innovation for your home

The Calibre Craftsman is a door that speaks of precision engineering, quality construction and stunning good looks. With 30 door styles to choose from and with 24 beautiful lifestyle colours available, Calibre Craftsman is a truly outstanding door.

Your home deserves the very best and Calibre can provide that very thing. From our state-of-the-art premises in Nether Heage, Derbyshire, Calibre have been building beautiful doorsets since the 1990's. Named after the beautiful woodlands of Britain, the Craftsman is our premium timber door and is exceptional in every way.

The Galloway in Devonshire paint finish with Contemporary Brushed Steel hardware

Simply a better class of door

A class leader in strength, security and authentic craftsmanship

We are proud to state that the Calibre Craftsman door is second to none and the care and skill put into our doors shines through whilst the innovation and engineering will bear out over its lifetime. Named after the beautiful woodlands of Britain, the Craftsman door is a tangible investment in your home.

- **Precision engineered to last**
A combination of a Kerto Q core, Sapele mahogany lipping and Tricoya facings provide a stable, hard-wearing, water resistant door
- **Two door slab choices - 44mm and 54mm**
Whatever your requirement or application, we offer both 44mm and 54mm door thicknesses with double and triple rebates
- **Thermal core option**
For the best in energy efficiency opt for a thermal door with a Polyurethane insulating foam core
- **A complete hardware choice**
Four individual ranges to choose from that include: handles, knockers, letterboxes and centre door pulls
- **Beautiful glazing options**
Over 30 elegant glazing styles are available for many of the Craftsman door styles
- **Low-E glass panels**
Wherever possible we supply an energy efficient glass specification as standard - see page 70-71
- **Double and French Doors**
Calibre Craftsman doors are available as stunning double doors or glazed French doors - call us for a bespoke quotation
- **Safe and secure**
The unique construction of a Craftsman door provides an incredibly strong defence for your home
- **24 stunning colours**
From fiery reds to cool blues and all the shades in between, our colour range is first class
- **Frame, sill and threshold options**
A wide range of options to complete your door specification including Part M low threshold
- **Document L Compliance**
Meets UK Building Regulations for replacement door applications

Why an engineered timber door and not a standard timber door?

As beautiful as a traditional timber door can be, wood in its purest form, is not the best material for this application. We have “designed out” all of the inherent problems usually experienced, and the Craftsman is an all round better, more reliable door for your home.

- No yearly maintenance
- No warping and twisting
- No draughts caused by shrinkage
- No rotting and deterioration
- No weather penetration
- No unstable timbers
- No flaking and crazing of paint finish
- No sticking and catching

A door engineered to perform

The most innovative, highly engineered door - direct from Calibre

It has taken more than two decades of research and development for the Craftsman door to evolve into the innovative, structurally sound product that we know today. Using years of experience in joinery and traditional craftsmanship, whilst harnessing the latest in innovative technologies and materials, the Craftsman door has ascended as the industry leader.

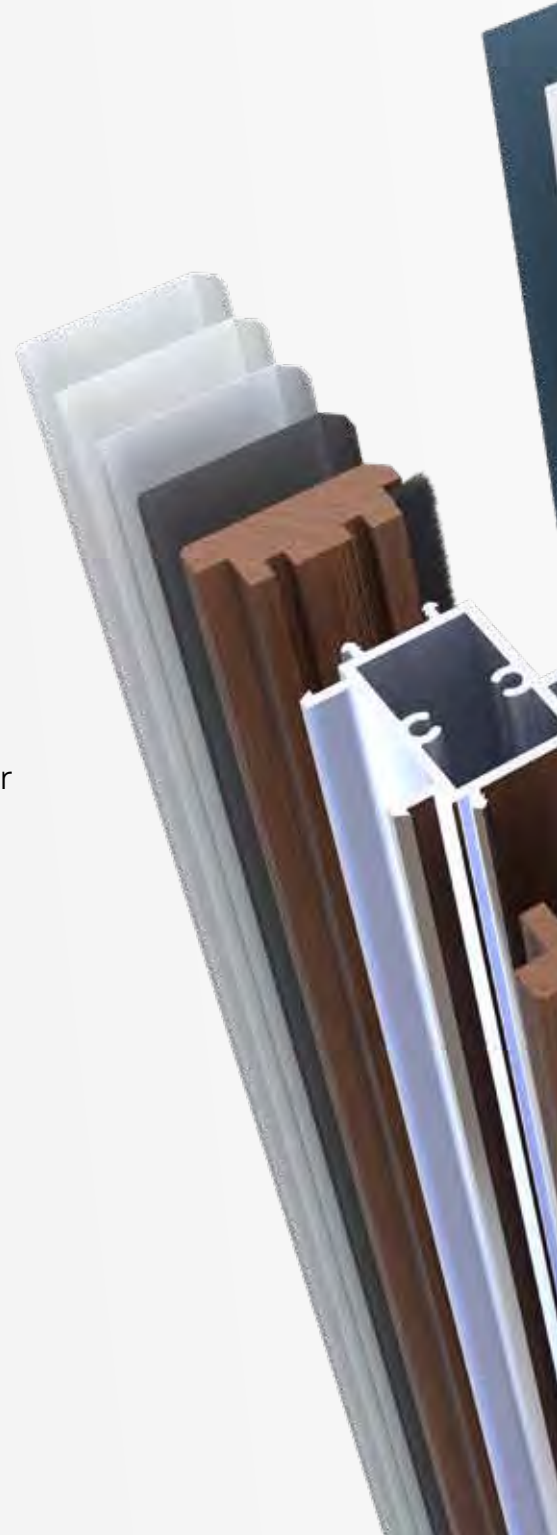

Our development team and workforce strive to produce the very best doorsets in the market place. Their craftsmanship and attention to detail are obvious in the complex construction and advanced materials used in each and every Craftsman door, guaranteeing a sound door for many years to come.

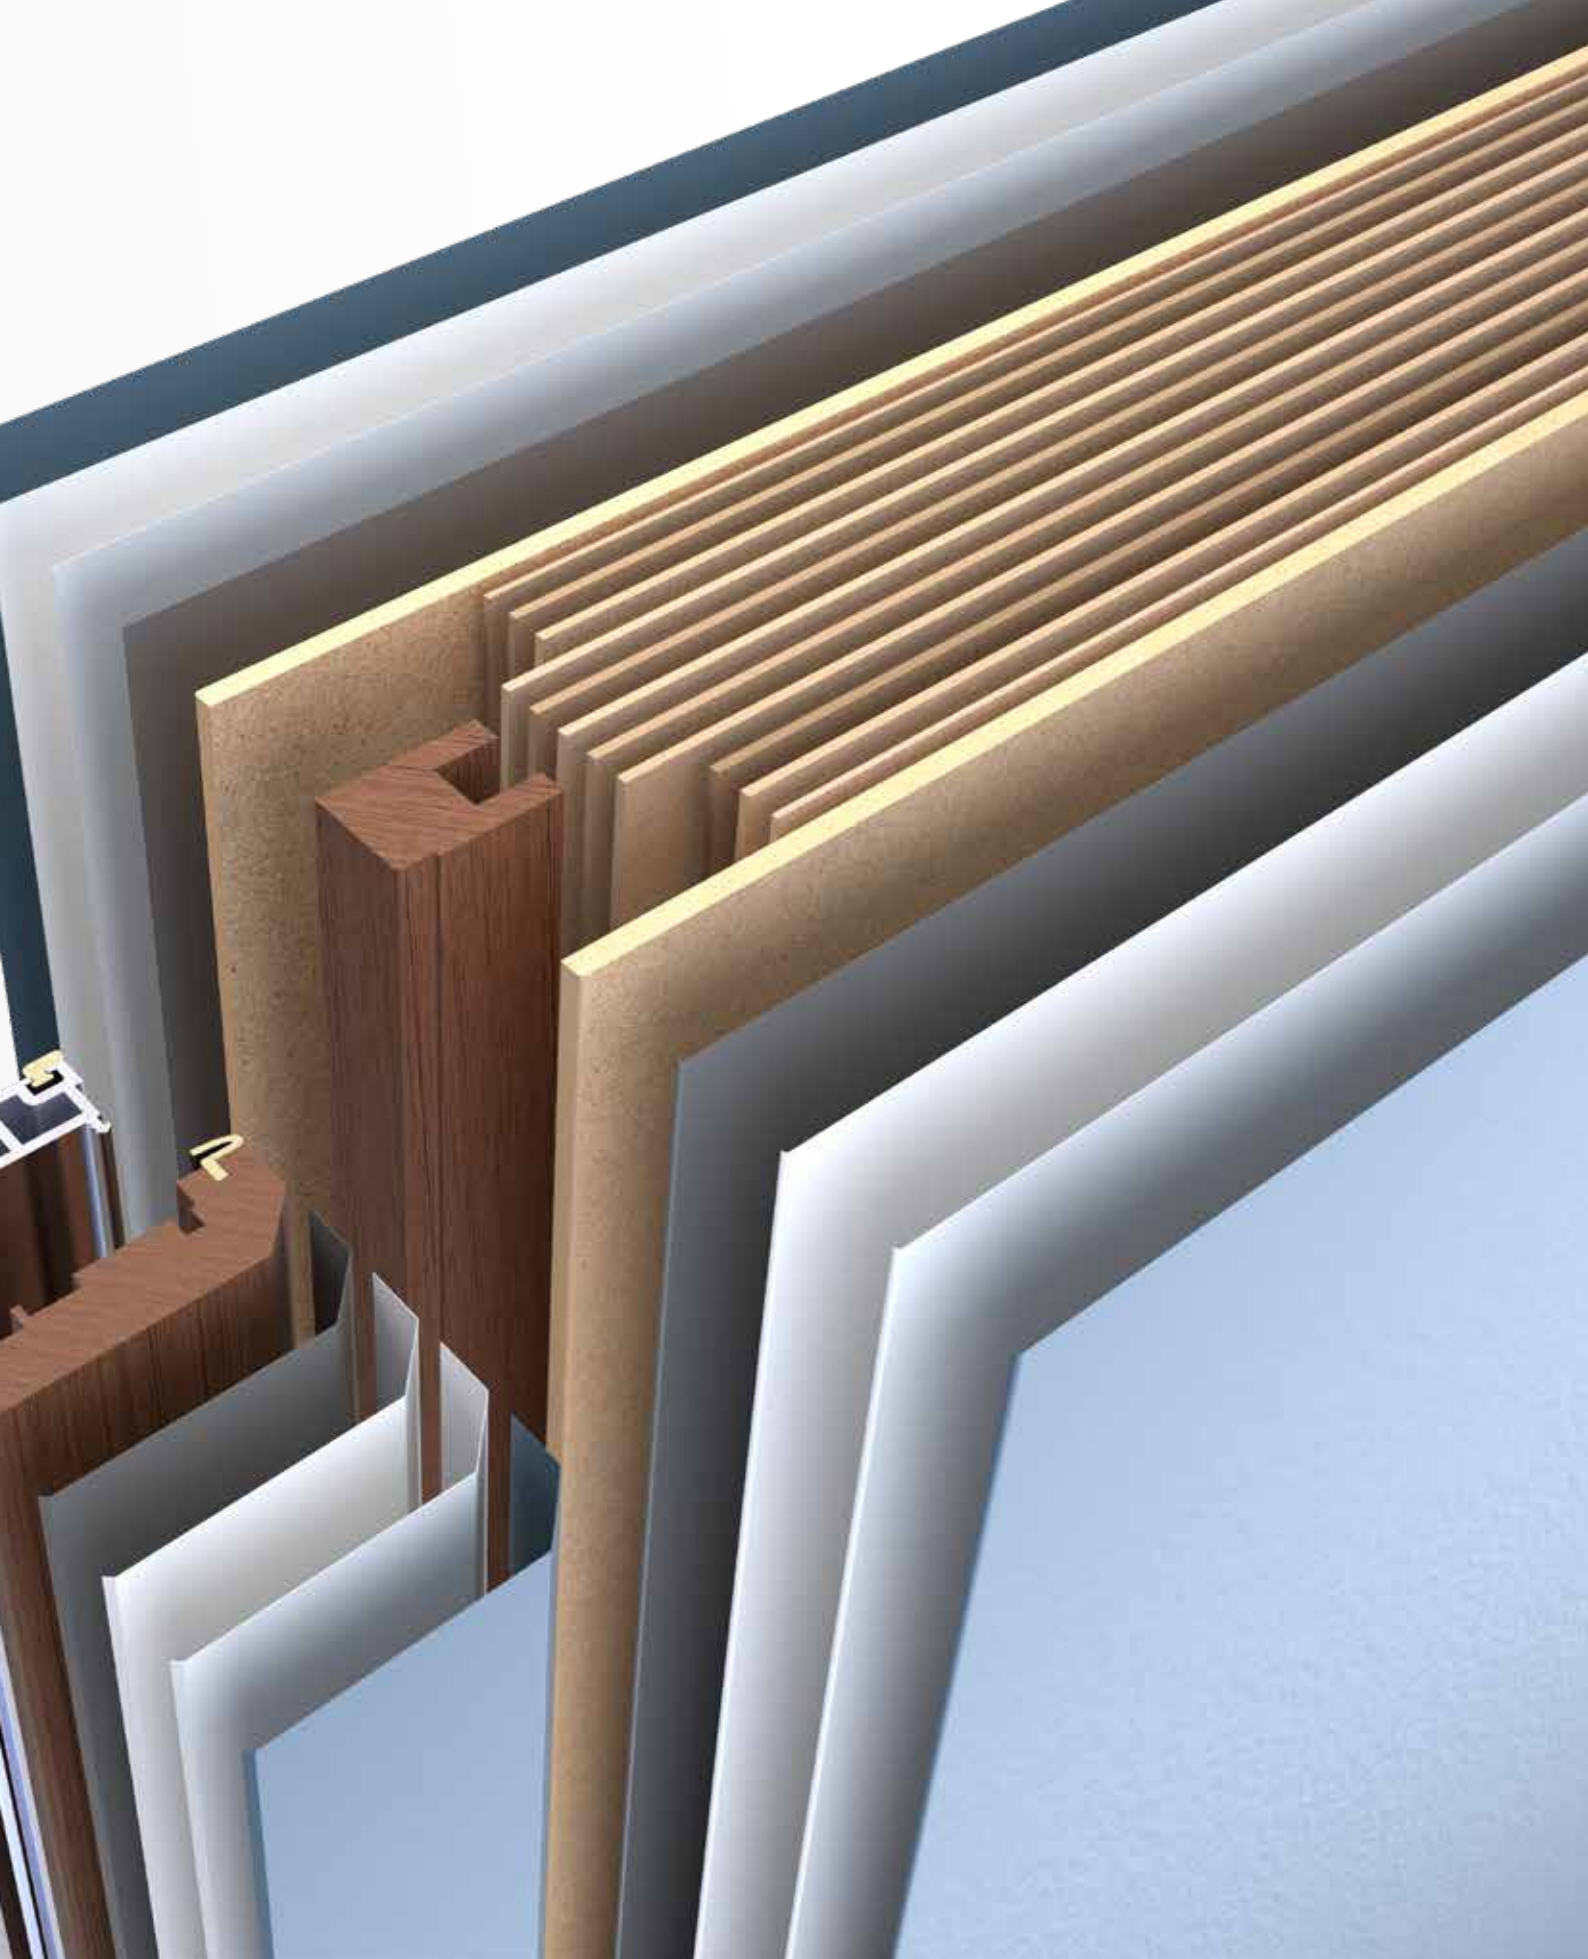

Strong and Secure: The sturdy door blade with solid core and timber/aluminium capped frame is an ideal choice for quality, strength and the best in innovative engineering.

Craftsman doors are available as:

- 44mm blade (solid or thermal)
- 54mm blade (solid or thermal)

Calibre are proud to manufacture with...

Dressed to impress...

The perfect door furniture to dress your Calibre Craftsman door

We've selected beautiful door hardware that complements the Craftsman door range perfectly. Whether your chosen style is a classic panelled door or a more contemporary door with a grooved design, we have the ideal hardware in range.

All Calibre Craftsman doors come with a standard handle, letterbox and knocker in a choice of four colours, four sturdy stainless steel or brass hinges and a secure multi-point lock as standard. See page 62-69 for details.

Standard Suited Hardware

Handle (lever and pad), letterboxes, knocker and spy hole available in four finishes: Polished Gold, Chrome, Satin and Black.

Painted Heritage Hardware

A stunning painted finish that gives a hammered artisan effect and is available in both black and pewter. Ideal for the cottage style doors.

Contemporary Hardware

Sleek, elegant furniture suitable for our contemporary door designs in brushed stainless steel. Choice of three handle styles, a pull and two knockers.

Premium Heritage Hardware

Beautifully hand forged in either a Black, Pewter, Brass or Chrome finish. Choose from three handle designs, a pull, three knockers and a letterbox.

Sweet Hardware

"Edgeless" hardware that looks modern and stylish. Handle, letterbox, knocker and escutcheon available in Gold, Chrome and Black finishes.

Let the daylight flood in...

Up to 30 glass designs to personalise your home with style

A glazed panel in your Craftsman door not only has the practical benefits of allowing light in, it also lets you reflect your own personal taste, style and creativity, effortlessly. Choose from up to 30 amazing glass designs to create that perfect first impression.

We have selected the most elegant and attractive designs which complement our stunning range of door styles. Whether you have chosen a traditional or contemporary style, we have the

ideal glazing choices to bring your door to life. Looking for something quirky? Choose a contemporary design for a traditional door or vice versa.

All our glazing products are manufactured to conform to the same exacting high standards as your Calibre Craftsman door, guaranteeing you peace of mind for years to come. Please note that wherever possible we supply energy efficient glass units as standard - see page 70.

Elegant glazing: Finesse is just one of up to 30 different decorative glass designs available with your Craftsman door. With its linear motifs, organic backing glass and crystal style centre, it is little wonder that it is one of our most popular designs.

Door colour featured on page...

With primer, basecoat and topcoats - that's equivalent to 10 coats of paint

Bring your door to life with one of Calibre's lifestyle colours. Inspired by nature and our rich heritage, each shade delivers a unique character to your home. Be inspired by our latest colour palette and let your creativity run free.

Our paint, however is not just all about looks. Every door leaves our workshop with two water based layers of colour, two of undercoat and a

primer, each applied using the latest spray technology.

All four layers add up to the equivalent of an impressive 10 coats of paint. With such a hard-wearing finish, you will be enjoying it for many years to come.

Modern styling

A contemporary classic: The Foxley in Anthracite paint with Contemporary Brushed Steel hardware and Satin glazing

Contemporary styles

The modern clean look of the Calibre Craftsman grooved designs is key to the Contemporary range. Using routed grooves to give the impression of tongue and groove boards, gives a designer look without any of the known downsides. There are no issues with twisting planks due to extremes of weather or moisture and no peeling or crazing of paint when boards swell or contract.

Our growing selection of modern designs have become very popular in recent years. The Foxley,

for example, with its characteristic long narrow glazed panel is the epitome of modernity when teamed with our stylish brushed stainless steel hardware suite.

The versatile looks of The Rufford, The Albury and The Whittingham when dressed in Black Premium Heritage Hardware, afford a cosy, country charm or alternatively with Polished Chrome hardware look perfectly at home in the city.

page 71

The Wentwood

MFF1

An unglazed slab with full width horizontal grooves defines the Wentwood and gives it a more contemporary feel than panelled door styles. With no glass set to navigate this door style is a good canvas for hardware and door furniture.

Photo: The Wentwood in Cambridge Blue with ProLinea hardware and a timber capped aluminium frame

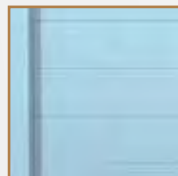

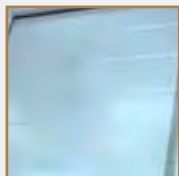

PVC-U Frame:

Min width : 724mm	Max width : 1202mm
Min height : 1865mm	Max height : 2195mm

Min height : 1859mm	Max height : 2189mm

All sizes exclude Timber or PVC-U sills and extensions
If a low threshold is required please deduct 7mm from height

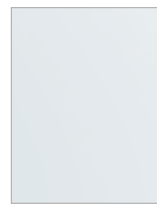

The Portland

MF60

The charming cottage window on the Portland stable door makes it a perfect compromise between the unglazed Heartwood and the half-glazed Charlcote. A beautiful stable door!

All sizes exclude Timber sills and extensions
If a low threshold is required please deduct 7mm from height

* Laminate glass option available

Our decorative glazing designs are supplied with a choice of backing glass from Global Glass see page 71

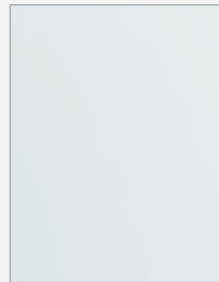

The Charlcote

MF61

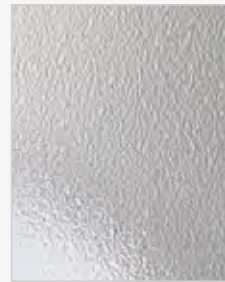

The Charlcote is our most popular stable door and often used at the rear of a property. Opening the top half of the door allows ventilation whilst preventing children and pets from straying outdoors.

Photo: The Charlcote in Vellum with Satin glazing and ProLinea Black hardware and a timber capped aluminium frame

All sizes exclude Timber sills and extensions
If a low threshold is required please deduct 7mm from height

* Laminate glass option available

Our decorative glazing designs are supplied with a choice of backing glass from Global Glass see page 71

The Heartwood

MFM7

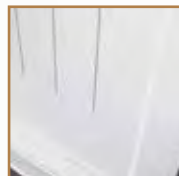

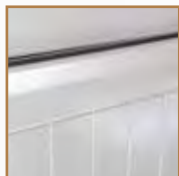

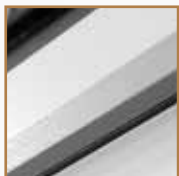

The Heartwood stable door style best demonstrates the vertical tongue and groove effect and the painted finish of the Craftsman range. This stable door provides total privacy until it is fully or half opened.

Classical styling

A beautiful range of traditional doors that bring a classic and luxurious look to your home. Elegant lines and expertly crafted panels combine with modern construction, giving you the very best of both worlds.

Traditional styles

Your front door is the first impression that a visitor has of your home. Whether you want to give the appearance of urban sophistication or something altogether grander, the Craftsman Traditional range has the ideal design.

Our traditional panels and mouldings have an elegant timeless quality that provides your home

with a look of tasteful discernment. Choose one of the stronger hues from our colour palette such as Wax Seal or Bottle for a classic look or choose a natural shade such as French Sage or Vellum for a more contemporary edge.

Whatever you decide, Calibre Craftsman provide the choice and range to make the right impression.

The Shackleford

MF85

The faux split scratch design of the Shackleford gives the impression of a traditional narrow double door found on many fashionable town-houses without any of the impracticalities.

Photo: The Shackleford in Merlot with Premium Heritage hardware in Pewter and a timber capped aluminium frame

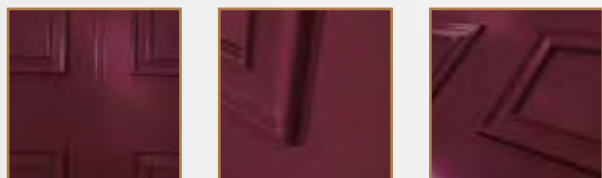

PVC-U Frame:

Min width : 837mm	Max width : 1202mm
Min height : 1935mm	Max height : 2195mm

Timber Clad Aluminium Frame:

Min width : 825mm	Max width : 1190mm
Min height : 1929mm	Max height : 2189mm

All sizes exclude Timber or PVC-U sills and extensions
If a low threshold is required please deduct 7mm from height

The Highgate

MFM2

A true design classic that gives any home a grand appearance, the Highgate, teamed with our beautiful high end door furniture is a favourite for many older properties in town and country.

Photo: The Highgate in Wax Seal with Premium Heritage hardware in Pewter and a timber capped aluminium frame

PVC-U Frame:

Min width : 837mm	Max width : 1202mm
Min height : 1935mm	Max height : 2195mm

Timber Clad Aluminium Frame:

Min width : 825mm	Max width : 1190mm
Min height : 1929mm	Max height : 2189mm

All sizes exclude Timber or PVC-U sills and extensions
If a low threshold is required please deduct 7mm from height

The Ashdown

MF15

The Ashdown is the classic dual glazed option making a smart statement for your home. Choose from our wide range of decorative glazing options to add an additional personal touch.

Photo: The Ashdown in Cambridge Blue with Murano Red glazing with ProLinea Satin Silver hardware and a timber capped aluminium frame

PVC-U Frame:

Colour

From soft natural hues to stronger traditional colours, our colour palette offers 24 shades to give your door a unique look. To guarantee your Craftsman door is protected, every door leaves us with two water based layers of colour, two of undercoat and a primer - the equivalent of 10 coats of paint.

Please note that all doors are the same colour internally as the external colour unless specified otherwise at the time of ordering.

Specifications

Ultion Upgrade

The Ultion range offers the ultimate security to your home. Using uniquely patented Snap Secure technology, Ultion is anti-snap, pick, drill and bump resistant, and is easy to fit with no additional prep and no need for cylinder guards or security handles. Ultion is 3 star rated straight out of the box, with a lock down mode that activates an attack lock directly into the central cam, keeping an intruder out whilst still being unlockable from the inside - keeping homes and families safe.

Ultion locks are continuously tested; having passed the Sold Secure Diamond Test, it has not yet been beaten. And with the attack lock being housed in Molybdenum, one of the best superalloys in use today, it's little wonder that Ultion has been described as having transformed the door market.

ULTION

Thumbturn option available

Enters Lock Down Mode when it detects attack

3 Star TS007 Test rating, Sold Secure Diamond rating

Over 294,000 combinations produced by 11 pins

Double anti-snap protection, with 6 hardened steel rods and two plates in both ends

The £1,000 Ultion Snap Guarantee

Ultion are offering a FREE 10 year guarantee to homeowners - just register at www.ultion-lock.co.uk within 28 days of installation, and if your home gets burgled as a result of your Ultion lock getting snapped in the following 10 years, you will receive £1,000.

Very few things go with us everywhere, our keys do. Keycap makes your keys look great and feel much more comfortable whether in your pocket or your hand. A wide variety of colourful caps are available, including glow in the dark options so they are easier to use at night.

Keyring brings all the benefits of Keycap with built in bluetooth. Track or activate the alarm in your keys from your phone and you'll never lose them again!

To order additional keys, please contact Ultion on 0115 784 3162.

Sweet Hardware Upgrade

Why shouldn't extreme personal protection look stunning? With Sweet's unique 'edgeless' design, it always does. Whether your home is contemporary or traditional, country-style or modern urban, Sweet stays effortlessly cool.

Sweet carries multiple coatings of copper and nickel, ensuring it always looks great, even after being hammered with salt water for over 5000 hours. That's an incredible 20x more times than required for the flagship EN 1906:2012 corrosion standard.

And with 3 super sleek colours to choose from, there's a sweet for everyone.

Low E, energy efficient glazing

Glazing in a GRP composite door will always reduce its thermal efficiency, but by installing our Low E option wherever possible, we can help negate that effect, which is better for the environment and better for your pocket.

Yale 3* Cylinder Upgrade

10
year

We also supply the Yale Platinum Euro Profile cylinder across the Calibre range. This cylinder is an anti-pick, anti-bump, anti-pull, anti-drill and anti-screw solution offering the full 3* rating, making it one of the most secure cylinders available. Calibre are committed to the safety and security of you and your home.

TS007:2014 3 star approved BS EN1303:2005 approved KM559658

Specifications

Frame, Sill and Threshold Options

Often it is the finishing touches to a project that make all the difference. To achieve the perfect look for your home with crucial functionality, Calibre offers a choice of frame, threshold and sill options to suit your requirements.

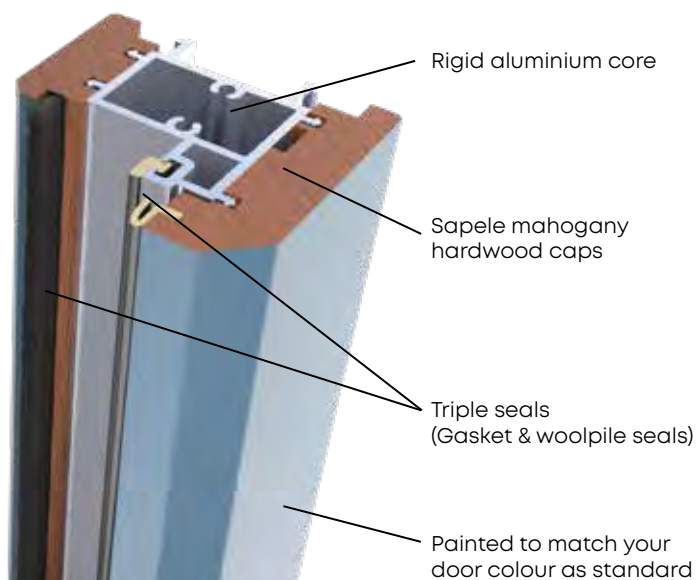

Frame options

Standard PVC-U Sheerframe chamfered outerframe (White only)

- **Multi-chamber profile**
With 8 chambers, our Sheerframe multi-chambered frames give an impressive thermal performance as standard
- **Environmentally friendly frames**
Lead-free profile and plastic thermal reinforcements (PTRs) are both thermally efficient and incredibly strong with the added bonus of being light and quick to install
- **Triple sealed**
Our innovative system uses three gaskets to reduce heat loss and improve weather-tightness
- **Secure construction**
With 72% better screw retention than through steel, PTRs offer more secure fixing of hardware keeping your frame rigid, stable and secure

Timber clad aluminium outerframe

- **Factory finished paint to match chosen door colour**
We colour your frame as standard to seamlessly mirror your chosen door colour
- **Triple sealed**
Our aluminium/timber system uses three gaskets to reduce heat loss and improve weather-tightness
- **Secure as standard**
The very construction of the timber clad aluminium frame means that the frame itself is incredibly strong and almost impossible to penetrate
- **Security Plus (SP) aluminium frame**
The rigid, high security frame and its engineered construction stops warping and twisting

Threshold options

Aluminium door thresholds to prevent rain and draughts under the door

Stormguard (AM3) aluminium threshold (Standard)

Low aluminium threshold (Part M compliant)

You have a choice of thresholds from Calibre, the standard offering is the Stormguard (AM3) aluminium threshold with a height of 25mm.

The low aluminium threshold, on the other hand, is just 15mm high and creates a low step when your door is open. The low threshold is suitable for disabled and wheelchair access and is Part M compliant.

Sill options

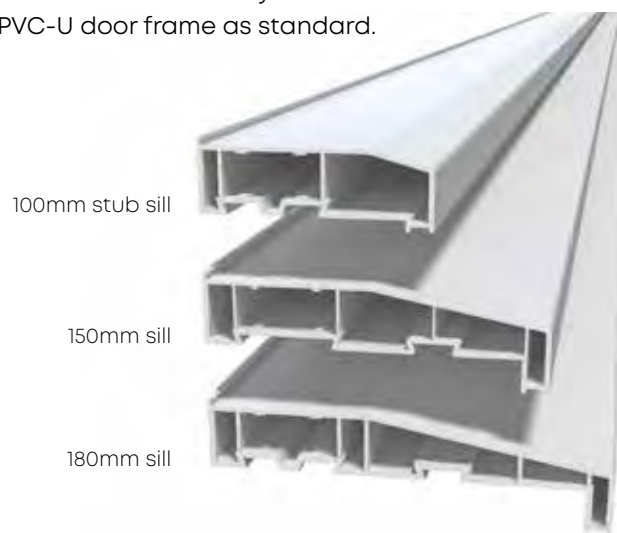

Timber sill

Timber sills are available as shown or painted Black or White as standard. You may also colour match to your door and frame.

PVC-U sill

PVC-U sills will match your PVC-U door frame as standard.

Frame extensions

To ensure the very best fit for your Calibre Craftsman door we supply a range of frame extensions in both PVC-U and hardwood options in various sizes.

Craftsman Guarantee

Accreditations

Calibre continually strives for - and achieves - excellence

The Kitemark is a UK product and service quality certification mark which is owned and operated by The British Standards Institution (BSI Group) and is achieved through rigorous testing only at a centre of excellence.

CE Marking is a mandatory conformity marking for products sold within the European Economic Area (EEA) since 1985 and is indicative of Calibre's complete compliance with EU legislation.

The national body for the accreditation of testing and calibration laboratories, certification and inspection bodies, UKAS is the sole national accreditation body, of which we are a proud member.

CHAS is a health and safety accreditation scheme for the construction industry, as CHAS accredited, we are committed to annual assessments to show we are maintaining the high levels of health and safety management required.

Sold Secure Diamond is a test developed in conjunction with the Master Locksmiths Association. It is designed by locksmiths, and very few locks pass the test. Ours do.

Secured by Design focuses on crime prevention of homes and commercial premises and promotes the use of security standards for a wide range of applications and products.

ISO 14001 is an internationally agreed standard that sets out the requirements for environmental management, to improve through more efficient use of resources and reduction of waste.

PEFC Chain of Custody is the process of handling information on the origin of forest-based products and allows us to make accurate claims on the content of sustainably certified material.

Customer support

At Calibre, our experienced and skilled customer care team is always on hand to provide technical advice, answer any door style enquiries, provide installation advice and to assist with project enquiries. We ensure that our customers have all the information they require to make the best choice and to provide excellent service.

How to use this brochure

In designing this brochure, we aim to provide you with all the information you need in order to choose the perfect door solution. At your finger tips, you have detailed product information, photographs, hardware choices, quality guarantees and glazing options.

Ordering from us (Available to Trade Customers only)

To place your order with us, you can do it in one of four ways:

Phone : **01773 850605**
Fax : **01773 853336**
Email : **tradesales@calibredoors.com**
Online : **www.calibredoors.com**

Be sure to have your account number handy when making your order, so we can find your business details quickly on our system.

We have the technical know-how

Unsure what door or hardware would be best for a specific job? Our team has specialist working knowledge of our product range, give them a call for helpful technical advice and support.

You can trust us to deliver

We measure our success in accurately providing what you ordered, quickly and on time. Our composite door range is now bigger and better than ever before and we keep our stock holding high so you don't have to. Remember: keep us informed if you are planning a large project and we will make sure we have everything you need in stock.

Call our team for support and advice

Dedicated customer services team

The role of the customer care team is to resolve any queries or issues you may have and we aim to respond promptly to your needs. In the event that problems arise, please do get in touch and we will do what we can to help you resolve the issue.

Craftsman doors – maximum choice, style and security

Calibre Doors is the largest producer of bespoke doors in the UK and offers design solutions to accommodate all your requirements. The Craftsman door range offers a style to suit every home, providing quality backed by service that is second to none.

Calibre Doors is part of the Aperture Group. Established over 30 years ago, Aperture now employs over 1200 people and has a turnover in excess of £150 million. Main operations are located at a UK-based 35 acre site with 70,000 square metres of production, warehousing and office facilities.

Thousands of professional installers choose to purchase Aperture products on a regular basis and Aperture recognises and values the loyalty of trade customers, always seeking to find new ways of offering practical support to help Aperture business partners win in the competitive marketplace.

The Aperture product range includes a choice of Legend, SynerJy, Shield and Sheerframe PVC-U window and door systems, Global Glass sealed units which feature the company's exclusive Celsius performance glass for premium applications, in addition to an Evolve range of fully manufactured and CE Marked specialist PVC-U products which includes bi-fold doors, patio doors and vertical sliding sash windows.

Thermally-efficient Celsius Solid Roofs, WarmCore 'warm aluminium' doors and windows and Stratus thermal lantern roofs are the latest product designs to be introduced by Aperture and these innovations signal new chapters in this award-winning company's history, with a continued pledge of delivering high quality products and service excellence to the fenestration industry.
